KLIMA AKTIV MOBIL
PROMOTING CLIMATE-FRIENDLY MOBILITY
ACHIEVEMENTS

AROUND 11,600 PROJECTS have been initiated by businesses, towns, municipalities, tourism regions and schools since the launch of the initiative, saving more than half a million tons of CO₂ emissions per year. This is an important contribution to Austria's climate protection obligations.

Since 2007, the klimaaktiv mobil funding programme has funded numerous traffic-related projects by providing grants of around EUR 108 million; these have generated investments of EUR 645 million which created or secured over 6,000 jobs.

MOBILITY TRANSITION – AUSTRIA IS JOINING IN

BY 2050, GREENHOUSE GASES are to be reduced by at least 80%. The klimaaktiv mobil climate protection initiative of the Austrian Federal Ministry for Sustainability and Tourism (BMNT) provides you a pertinent offering for more climate-friendly mobility across Austria and support for implementing traffic-related environmentally friendly projects. Together we will move the mobility transition forward – join in as well!

INTERNATIONAL AWARDS

AS AN INNOVATIVE INITIATIVE, klimaaktiv mobil has already twice received the EU Public Sector Award and it is also considered as a European best practice example in the context of the Pan-European Programme for Transport, Environment and Health of the UNECE WHO (THE PEP) as well as the Platform on Mobility Management (EPOMM).
TAKE ADVANTAGE OF THE KLIMAAKTIV MOBIL OFFERS ...
